

ERRATA SHEET

ECLS-K Base Year Public-Use Data Files (NCES 2001-029)

The following error was identified in the ECLS-K Base Year Public-Use *Child* data file (child.dat).

1. Five children in the spring of kindergarten (round 2) had their parent interviews conducted under the wrong parent identification number. As a result the child records for these children have incorrect parent data, although they are correct for the other components (child, weights, etc.). None of the 5 children have R1 parent data. Two of these children should not have had any parent data since they were round 2 nonrespondents, which three of the cases had their parent data stored under other children's identification numbers. The IDs are:

	Case (Child ID)	Has parent data belonging too ...	Should have parent data from...
1.	0192015C	3056007C	No parent data (R2 nonrespondent)
2.	0192001C	0192003C	No parent data (R2 nonrespondent)
3.	0192003C	0192015C	0192001C
4.	0192015C	None	0192003C
5.	3056007C	None	0192015C

A user has several choices. They may go ahead and use the cases since the effect on any analysis will be trivial. The other option would be to discard these five cases during analysis. There would not be much benefit in reassigning the correct data to the appropriate child, as parent-level weights were not created for cases 0192015C and 3056007C for round 2 as they were considered as having missing parent data during the process of the creation of round 2 and base year longitudinal parent weights.

SPRING PARENT INTERVIEW

ECLS-K Electronic Codebook

SECTION: Introduction - INQ

Last fall, we spoke with {NAME OF FALL RESPONDENT} who took part in the Early Childhood Longitudinal Study Kindergarten Cohort on {DATE OF FALL INTERVIEW}. Am I talking to the same person?

Variable Name : P2FALLNW P2 INQ050 SPEAKING TO FALL RESPONDENT
 Record Number : 1
 Position : 3411-3412
 Format : N2.0
 Comment : Blanks (no value) in the frequency distribution indicate nonresponse for the entire instrument.

Response	Codes Percent	Unweighted Frequency
